To install Google Play Games Beta on your PC, ensure your computer meets the minimum requirements. On your Windows computer, navigate to play.google.com/googleplaygames and click Download. Follow the installation instructions, which may take a few minutes. If your computer doesn't meet the minimum requirements, you'll be notified, and the installation will be stopped. Before installing Google Play Games Beta, enable virtualization settings on your PC, including Windows Hypervisor Platform, which must be turned on in BIOS settings. Additionally, ensure CPU virtualization is enabled. To play mobile games across devices, sign in with the same account on both your mobile device and PC. Note that only the first user to install Google Play Games Beta on their PC can access it. If you encounter installation errors, refer to error codes and solutions provided during installation. You may need to update your PC or contact the manufacturer for assistance. Troubleshooting tips include: - Restarting your computer - Checking system information for feedback - Submitting feedback via Google Play Games installer Google Play Games Beta is still in beta, so any feedback received is appreciated. To exit S mode on your computer, follow these steps: On your computer, open the Microsoft Store and search for "Switch out of S mode". Select the "Get" option to begin the process. Follow the on-screen instructions to confirm that you want to exit S mode. If you encounter any errors during installation, such as Error 0x80070070, check Microsoft's support article for more information.
