Located in the vehicle, the type of oil employed, and also the cost for labor. 2003 Dodge Ram 1500 5.7 Oil Type: The oil type recommended for the 2003 Dodge Ram 1500 5.7L is 5W-20 synthetic blend motor oil. In general, RAM 1500 trucks require six quarts for an oil change. The top 5-W-20 blend synthetic motor oils for the 2003 Dodge Ram 1500 5.7L are Castrol Edge High Mileage with Fluid TITANIUM Technology Pennzoil Platinum Full Synthetic Motor Oil, you can also consider Valvoline MaxLife Full Synthetic Motor Oil, Mobil 1 Extended Performance Full Synthetic Motor Oil, Quaker State Full Synthetic Motor Oil, and it is crucial to choose the type of oil recommended for your vehicle because choosing the wrong oil can harm the engine. It is recommended that you check your owner's manual to determine the recommended interval for oil change. 2003 Dodge Ram 1500 5.7 Oil Capacity: The capacity of oil for the 2003 Dodge Ram 1500 5.7L Hemi is 6.6 cubic inches, meaning you will need around 6.6 five quarts of 5W-20 motor oil to complete an oil change. The following is an outline of the type of oil capacity, oil type, and filter for the 2003 Dodge Ram 1500 5.7L Hemi: Item Specification Oil type 5W-20 Oil capacity 6.6 quarts Using the correct oil type is crucial for maintaining your 2003 Dodge Ram 1500. The recommended oil type is 5W-20 or 5W-30 engine oils. It's essential to check the owner's manual of your vehicle to determine the most current and accurate information on oil type and other requirements for maintenance. Regular maintenance is essential to keep your Dodge Ram 1500 running smoothly and prolong its lifespan. Here's a step-by-step guide on how to change the oil, air filter, and other essential components: ### Changing the Oil Using 2004 Dodge Ram 1500 Oil Guide to Maintain Vehicle Excellence Maintain your Dodge Ram 1500's performance is important. You must choose the right engine oil and filter that match Dodge specifications. Using high quality oil from good brands will help you keep the engine in top condition. For 3.7L V6 Engine, you need 5 quarts of SAE 5W-30 motor oil, including the oil filter. Mopar 04781452BB is the recommended OEM oil filter. For 4.7L V8 Engine, you can hold up to 6 quarts of SAE 5W-30 motor oil. Mopar 05281090AB is suggested as the OEM oil filter. For 5.7L V8 Engine, you need 7 quarts of SAE 5W-30 motor oil and Mopar 05281090AB is recommended OEM oil filter. And for 8.3L V10 Engine, you have 8.7 quarts of SAE 0W-40 motor oil with Mopar 05281090AB being the recommended OEM oil filter. Regardless of the trim of your Dodge Ram 1500 - SLT or ST engine oil requirements stay the same as long as engine option is same. You must choose the right oil and filter for your specific engine option. Regular servicing with the right engine oil and oil change intervals will keep your Dodge in top condition. The 2004 Dodge Ram 1500 with its 4.7-liter engine is a powerful and reliable choice, offering exceptional performance. To keep it in optimal condition, regular maintenance is crucial. Following recommended engine oil specifications and service intervals ensures the longevity of your vehicle. Choosing the ideal oil for your 2004 Dodge Ram 1500 depends on driving habits and climate. Conventional oil is suitable for city driving, while synthetic oil is better suited for highway driving or hot climates. The capacity of the oil is approximately five quarts for the 4.7-liter engine. The oil filter used in this vehicle can vary depending on the engine configuration. For example, Mopar component number MO-090 or equivalent is suitable for the 3.7L V6 engine, while MO-349 or similar is required for the 5.7L V8 engine. Always consult the owner's manual or a certified mechanic to confirm the correct oil filter. The essential oil for a 2004 Dodge Ram 1500 is vital for maintaining the engine's long-term efficiency, and it's crucial to consider factors such as driving conditions, climate, and engine age when making a decision. Whether you opt for conventional oil, synthetic blend oil, or full synthetic oils, regular maintenance and adherence to the manufacturer's guidelines are necessary to ensure optimal engine performance. Regular oil changes are also vital, typically every 5,000 to 10,000 miles, as neglecting this can lead to severe engine problems. For more information on the recommended oil type and capacity for your vehicle, please visit our website at the 2004 Dodge Ram 1500 oil type and capacity. When it comes to choosing the best engine oil for a Dodge Ram 2500, Shell Rotella T6 Full Synthetic 5W-40 Diesel Engine Oil is an excellent option. If you're unsure about the correct oil capacity for your vehicle, consult the provided information. For those who own a 2003 Dodge Ram Hemi or 5.7 Hemi, it's essential to know that both models require 7 quarts of oil with one filter. However, using synthetic oil is only recommended if you've already reached 30,000 miles, as it can cause problems. If your 2004 Dodge Ram 1500 has a P0524 code, it indicates an issue with the oil pressure sensor or pump. This code can be caused by the sensor failing to read lower pressures when engine RPM slows down, or the pump itself malfunctioning.
