Rings & Amulets in Diablo 3 Have Significant Impact on Damage OutputCollecting rings and amulets is crucial for maximizing damage output in Diablo 3, as they offer some of the most impactful damage modifiers of any item slot. With three active gear slots, an additional three on your Follower, and a spot in Kanai's Cube, you'll need to collect a lot of jewelry to equip.##ARTICLERings are a crucial part of your gear loadout, offering significant damage modifiers. You can collect jewelry items to wear, give, and extract their power. With various options available, ensure you read each entry's description for information on where to equip these pieces.You can purchase the Hellfire Amulet crafting design for 100,000 gold from Squirt the Peddler in Act 2. This Legendary amulet is an amazing option for characters without their best-in-slot, offering a random Passive Skill slot.For classes relying on spells to navigate Sanctuary, the Obsidian Ring of the Zodiac is ideal, reducing the remaining cooldown of skills by 1 second when hitting with a resource-spending attack. This ring also grants Reduced Cooldowns, Attack Speed, Critical Hit Chance, and Reduced Resource Costs.The Oculus Ring is perfect for Follower companions, adding value to your partner by allowing them to buff you. It creates an area of focused power that increases damage by 70-85% for all standing within it.Squirt's Necklace balances risk vs. reward, with a Secondary stat increasing damage dealt by up to 100% and damage taken by up to 50%. This amulet is suitable for squishy characters but requires careful play to avoid overextending.The Unity ring provides a buff for you when worn, splitting all damage between everyone wearing it. However, this takes up an active item slot.The Endless Walk Set bonus grants reduced damage taken while moving and increased damage dealt while standing still. This is a great combination for most classes, but requires specific requirements such as planting your feet before attacking.Focus and Restraint are another two-ring Set that offers significant benefits when worn together, granting 50% increased damage for hitting with either resource-spending or resource-generating attacks.The Flavor of Time makes use of the powerful item stat 'Emanates', providing a huge bonus to your character when equipped on your Follower. This amulet is ideal for pushing higher Greater Rifts.A Ring of Royal Grandeur lowers the required number of Set items needed to gain bonuses, making it crucial for several high-end builds in Diablo 3. It's perfect in Kanai's Cube or can be worn just as effectively.The Convention Of Elements is considered the most powerful and versatile ring in Diablo 3, offering benefits for nearly every character and being viable for both equipped and extracted power.The major advantage of the Convention of Elements ring lies in its ability to amplify an elemental damage type by 150-200% for 4 seconds, cycling through all elemental types. There are seven variations of elemental damage: Arcane, Cold, Fire, Holy, Lightning, Physical, and Poison. If your build focuses on one elemental damage type, you can expect a 200% damage increase for 4 seconds every 24 seconds. Next, amulets in Diablo 3 have some of the most impactful damage modifiers of any item slot. Ring & amulet slots make up a significant portion of your overall gear loadout. With numerous options available, it is essential to read each entry's description to determine where to equip these pieces. The Hellfire Amulet can be crafted by visiting Squirt the Peddler in Act 2 for 100,000 gold. This Legendary amulet provides a random Passive Skill, essentially granting classes a 5th Passive Skill slot.Each crafted Hellfire Amulet is tailored toward the class that created it, imparting a Passive Skill applicable to that class. However, this item cannot be extracted into Kanai's Cube and does not provide substantial benefits for your Follower. Therefore, it is recommended to equip it. Classes that rely on their spells being off cooldown can benefit from the Obsidian Ring of the Zodiac. This ring reduces the remaining cooldown of 1 skill by 1 second when hitting with a resource-spending attack, in addition to granting Reduced Cooldowns, Attack Speed, Critical Hit Chance, and Reduced Resource Costs.This ring is suitable for active gear slots or Kanai's Cube. In contrast, The Oculus Ring serves as an excellent Follower companion, adding value to your partner by allowing them to buff you. Wearing the Oculus Ring enables the creation of an area of focused power that increases damage by 70-85% for all standing within it.Items on your Follower should focus on crowd control, debuffing enemies, or providing buffs to yourself. The Oculus Ring isn't ideal for wearers or Kanai's Cube but is one of the best Follower options. Squirt's Necklace balances risk vs. reward and features a Secondary stat that increases damage dealt while not taking damage by up to 100%. This necklace can be a give-and-take item, providing substantial benefits when avoided taking damage.Aside from the Oculus Ring, Unity is another highly effective Follower ring that provides a buff for yourself. When you wear one and give another to your Follower, you receive an immense amount of survivability. However, this ring may take up one of your active item slots. The Endless Walk Set consists of two pieces: The Compass Rose ring and The Traveler's Pledge amulet. This set grants the bonus 'while moving, damage taken is reduced by up to 50%; while standing still, damage dealt is increased by up to 100%'.This bonus is a perfect combination for most classes, providing defensive and offensive boosts when needed. Focus and Restraint are another two-ring Set that offers substantial benefits and versatility. When wearing both rings, the Bastions of Will grant 50% increased damage for hitting with either a resource-spending or resource-generating attack.Having at least one Convention Of Elements for every player can be a major advantage in Diablo III, increasing elemental damage types by 150-200% for 4 seconds and rotating through all types. There are seven variations: Arcane, Cold, Fire, Holy, Lightning, Physical, and Poison. Focusing on one type can boost damage up to 200% every 24 seconds.##ARTICLEThe Oculus Ring is a key piece of gear for any character looking to add damage boosts to their allies. Items on the follower should focus on crowd control, debuffing enemies, or providing buffs to the wearer. The Oculus Ring isn't ideal in Kanai's Cube but remains one of the best Follower options. A popular necklace for glass cannons is Squirt's Necklace, which offers a give-and-take balance between risk and reward. Its secondary stat allows damage dealt to increase by up to 100% while not taking damage, making it a valuable asset for players who can avoid taking damage. Unity is another top-notch Follower ring that provides a significant buff when worn with a Unity-set ring. The Endless Walk set is a great option for classes that need defensive and offensive boosts. Focus and Restraint are also highly effective, granting increased damage when switching between different attack types. The Flavor of Time amulet is an excellent choice for followers due to its ability to grant benefits without taking up an active gear slot. Ring of Royal Grandeur can be a game-changer in Kanai's Cube or as a standalone item. Convention Of Elements remains the most powerful and versatile ring in Diablo 3, offering a significant elemental damage boost. By mastering various rings and amulets, players can optimize their builds for maximum effectiveness.The Oculus Ring can significantly boost damage output in Diablo 3 by increasing it by 70-85% for all characters within its range. Wearers of this item spawn damaging circles that harm enemies and make allies take more damage.Squirt's Necklace is another powerful Follower necklace, providing a Secondary stat that increases damage dealt when not taking damage, up to 100%. However, players must be cautious, as this amulet also ramps up damage taken by squishy characters.Another top Follower ring is Unity, which distributes damage equally among all characters wearing it, making it an excellent choice for those with survivability needs. On the other hand, The Endless Walk and Focus and Restraint sets provide balanced defensive and offensive bonuses, while The Flavor of Time offers a huge bonus to damage output without taking up an active slot.The Convention Of Elements is considered the most powerful and versatile ring in Diablo 3, increasing elemental damage by 150-200% for four seconds and rotating through all elements. Ring of Royal Grandeur can lower the required number of Set items needed to gain bonuses, while Pylons become crucial for higher Greater Rifts.The Oculus Ring is an excellent Follower companion that enhances your character's abilities by increasing damage output within its area of effect. This ring periodically spawns circles on the ground, boosting allies' damage dealt by up to 70-85%. To make the most out of this ring, it's recommended to assign a Follower item that focuses on crowd control, debuffs, or buffs. The Oculus Ring excels as a Follower option but isn't ideal for wearers or Kanai's Cube.Meanwhile, Unity is another top-tier Follower ring that splits damage between everyone wearing one. When paired with a Unity given to your Follower, you gain significant survivability. However, this setup takes up an active item slot, which may be a concern for some builds. Nevertheless, having a Unity set can greatly aid in pushing Solo Greater Rifts.The Endless Walk Set is comprised of The Compass Rose ring and The Traveler's Pledge amulet. When equipped, it grants a bonus that reduces damage taken by up to 50% while moving and increases damage dealt by up to 100% when standing still. This combination works well for most classes but requires planting your feet before attacking.Focus and Restraint are another two-ring Set that rivals Endless Walk in terms of power and versatility. When both rings are worn, Bastions of Will grant a 50% increase in damage for hitting with either resource-spending or resource-generating attacks. To activate this bonus, simply cycle between using these attack types every 5 seconds.The Flavor of Time amulet is the top choice for your Follower due to its ability to emanate and benefit your character without taking up an active gear slot. This powerful buff makes grinding any Rifts easier by doubling the uptime of Pylons. Every class can utilize this item to boost their performance.Ring of Royal Grandeur is a vital accessory that lowers the required number of Set items needed to gain its bonuses. It's perfect for Kanai's Cube and can be worn effectively, making it crucial for high-end builds in Diablo 3. This ring frees up an item slot, providing a significant bonus that makes Ring of Royal Grandeur indispensable.Convention Of Elements is the most powerful and versatile ring in the game, increasing elemental damage by 150-200% for 4 seconds every 24 seconds. With its ability to rotate through all elemental types (Arcane, Cold, Fire, Holy, Lightning, Physical, and Poison), this ring is a must-have for nearly every character.By rejecting non-essential cookies, Reddit aims to enhance user experience while still ensuring platform functionality.
