Concepts About Print: Levels A and B Level A and B texts are foundational tools specifically created to assess emergent readers' knowledge of print conventions, phonological awareness, and early phonics skills. At these levels, the focus is on ensuring that students can navigate books, recognize the direction of print, and understand basic letter-sound relationships. Expanding Reading Skills: Levels C and D Levels C and D are designed to build upon the foundational skills assessed in levels A and B, expanding students' early phonics abilities and comprehension. These texts provide a more structured approach to phonemic awareness and early reading skills, helping teachers understand how students are transitioning from emergent to early readers. Implementation Support Build teacher confidence for a successful BAS 2.0 implementation with our live online or in person Getting Started session for schools or districts. Educators will learn the assessment's organization, structure, and components, ensuring that teachers feel both confident and excited about their new assessment system. Ongoing Professional Learning Expert coaches will guide teachers to success through year-long collaboration in cohorts of up to 20 educators, facilitating instruction planning and the effective implementation of BAS 2.0 in the classroom.
