Many readers have been captivated by her writing style, and it is not uncommon for them to ask the question, "how many books does Dudu Busani Dube have?"

IndexDudu Busani Dube has a total of four books published to date. Each book tackles different themes, from love and friendship to politics and religion. Here is a brief overview of each one:**The Stained Petal**The Stained Petal is Dube's debut novel, published in 2014. The book tells the story of a young woman named Ayanda who is trying to find her way in life while dealing with the trauma of her past. The book received critical acclaim and was shortlisted for the 2016 Etisalat Prize for Literature.**The Hlomu series** consists of three books, namely **Hlomu the Wife**, **Zandile the Resolute**, and **Naledi His Love**. The series is set in Johannesburg and follows the story of the Hlomu sisters, who fall in love with the sons of a wealthy businessman. The series explores themes of love, family, and tradition.**Red Apple Dreams****Red Apple Dreams** was published in 2020 and is Dube's latest release. The book is a collection of short stories that explore the lives of different characters dealing with issues such as heartbreak, abuse, and poverty. The stories are a reflection of the realities faced by many South Africans.**In Conclusion**Dudu Busani Dube may only have four books published, but she has already made a significant impact in the literary world. Her stories are captivating, and her writing style is unique. We hope to see more from her in the future. **Zandile the Resolute** is the second in Dudu Busani-Dube's blockbuster Hlomu series. This novel continues the story of the eight Zulu brothers. Rich, handsome, powerful, dangerous and the wealthiest and most powerful families in Johannesburg, Zandile is the wife of the first brother Nkosana, their love story is like a South African township Romeo and Juliet, their families hate each other but their love is so strong, it endures all the hatred, the deaths and even prison time.**Book reviews** from Goodreads.com:I did an overall series review on the Hlomu page.Zandile is my favourite book of the series. I love Zandile the character for standing her ground and knowing her strengths without totally succumbing to her weaknesses. Of all the girls, she's the one who seems to know when to push and when to fall back. Controlling and intimidating as Nkosana gets, Zandile knows how to manage him without wreaking havoc in her home. She's smart. I would've loved to see her shown more respect, and more consideration. She is, after all, the one who knows them far more than most. Yes, Hlomu has been there through tough times, and stood by them. But, Zah showed loyalty before they had anything. She loved them when it was inconvenient and dangerous. Hell, she showed them she's up to the task when it comes to protecting her family, and paid dearly. I find it a bit frustrating that they feel a need to keep her out of the loop even when they bring Hlomu in.She's much tougher than they give her credit for, and deserves her dues.**Goodreads**, Meza, 27 August 2017Zandile is my favourite Zulu wife. The University of life really schooled her. I love how she supported and loved them even when they had nothing and they were doing their cash heists to "organise" money for their first taxi. Similarly to Hlomu, I read it in two sittings and it is a masterpiece of modern literature.**Goodreads**, Mpho Bernadette, 13 December 2017Dudu Busani-Dube is an amazing storyteller and her books are captivating and entertaining. I enjoyed reading about the love Nkosana and Zanele share, and the sheer strength and resilience she portrays. Hlomu is still my favourite book so far though. But that takes nothing from this one. Highly recommended series I first heard about Hlomu the Wife from a friend who some-what forced me into reading it. The excitement in her eyes as she tells me a bit about the book was enough for me to want to read it. From the first page of the book, I was hooked! I was reading the book on my way to work and later on my way home, simply could not put it down. Hlomu the Wife is based on a story about a young journalist, Hlomu, who is from Kwa-Zulu Natal and lives in Johannesburg for work purposes. Hlomu then meets a taxi driver, Mqele, who won't stop pestering her about them being together and living happily ever after. Their relationship starts off really well, with Mqele making sure that Hlomu gets everything she desires, when she wants it. However, just like any other relationship, there are some complications and conflicts. Mqele is also from KZN and has 7 older brothers. Furthermore, Mqele has a dark past which goes way back to the Apartheid era. After his parents were torched to death by the community because of conflict, Mqele and his brothers had to find their way to Johannesburg and make a living for themselves. They became taxi drivers and later on became successful taxi owners. Hlomu came into their lives and sort of had to help them build a complete home for themselves, she became the mother to them all, the brothers and their children. Hlomu helped them grow their business to being more than just about taxis. Mqele and Hlomu then get married and have their children. As the story progresses, new characters are introduced into the second book from the series, Zandile- the Resolute. Zandile is the wife of the older brother, Nkosana and they too have their own story. Zandile has been in prison for many for murdering her mother who tried to kill her and the baby she was carrying at the age of 16. Zandile and Nkosana had their own children, but they couldn't have their happily ever after as Zandile's past soon came back to haunt her and she was sent to prison. She was taken away from raising her children and being Nkosana's wife. Zandile's story is about resilience and having the courage to always fight for what you love. The last story, Naledi, introduces Qhawe's story, one of the brothers who too meets the love of his life Naledi who changes his life and brings new life into the family. These books are such a thrill! The minute you finish the one, you immediately want to read the next one. Well that's how it was for me. I enjoyed the books because they tell true African stories that people deal with day to day. The lessons that I have taken from this book are that, firstly, every relationship is complicated, it takes two people who are will to work at it for the relationship to make it. Secondly, family is important, you do everything for each, even die for each. And that loyalty is everything! Dudu Busani-Dube is one of the most influential African authors of today. Little did she know that her book would grow from a self-published passion project into the inspiration for a wildly popular series with a massive following and a deal with streaming platform Showmax! But that's exactly what happened to Dudu, the journalist-turned-fiction-author and the woman behind the Hlomu the Wife book series. Centred around the lives of eight Zulu brothers, a formidable crime family from Greytown, KZN, the series tells love stories through the eyes of the wives who fall in love with the tall, dark and dangerous brothers. A meeting with a man who tells them they need to rid themselves of an ancestral curse leads the Zulu brothers on a journey of uncovering their lineage. Perhaps the most gut-wrenching book in the series, Mess follows Lahlive and Mqoqi as they try to make their relationship work despite the damage done to them. Season 3 landing on 10 November 2022. Dudu Busani Dube I first heard about Dudu from my cousin who had just read her first book in the Hlomu series and thought I would like it. And I did! I was blown away. To be quite honest, at first, I didn't think I would, I thought it would be a drag, a redundant story about some girl who comes to Jozi seeking a better life, only to get schooled by life-but boy did I get schooled along with her? Dudu brings a refreshing twist to South African literature. Her ability to turn stories of everyday life into encapsulating mysteries, horrors, and fantasies is amazing. The Hlomu series has a way of putting relationships into perspective. The ordeals faced by friends, siblings, and lovers take on a whole new narrative in her stories. Reading through this series is like looking at life from a different viewpoint. This, however, does not take away from how relatable this story is, appealing to readers across various age groups and offering an escape and a sense of hope for those who need one. There are 3 books in the series - that I know of- and whilst they are interlinked, they all bring a unique rendition of the fairytales and horrors of the characters represented. First in the series, is the book, Hlomu- The Wife. The story of Hlomu is a heart-wrenching one that pulls at your heartstrings. Hlomu is a young graduate who comes to Jo'burg to pursue a career in Journalism. She meets a guy she assumes to be a taxi driver, who has 7 brothers who all look painstakingly similar. With some resistance, she finds herself falling in love with him and she happens to be the piece of the puzzle, his family has been missing. Hlomu's story is one of hope and growth, a bildungsroman of sorts. She epitomises strength, bravery, and passion, there is a tenacity about her that just cannot be ignored. Having joined the Zulu family at a young age and having to take on the responsibility of becoming an instant mom at age 22, you cannot help but marvel at her strength and will. Hlomu ends up taking responsibility for, and practically raising the kids in the Zulu family as her own, despite not knowing where or who their mothers are. Hlomu and Mqhele decide to get married a year after meeting. This prospect of marriage forces the brothers to deal with the gruesome memory of their past, a past they have run away from and have no need to confront until the issue of marriage arises. Next in the series is Zandile- The Resolute. Zandile is the eldest brother Nkosana's lover. The two's love is a long-standing one that could not even be dissolved by 5 years of not seeing each other or neither of them knowing where the other was. Zandile and Nkosana are high-school sweethearts who are separated one dreadful night when the brothers flee their place of birth to save themselves from the wrath of their father's nemesis. Their story resembles that of Romeo and Juliet, in that their families, or at least Zandile's family wanted nothing to do with the Zulus. They reconnect when one-day Zandile sees Nkosana driving a GP registered taxi on a highway and she resolves to go seek him out in Johannesburg, with no idea of where she would start. Zandile at this time is betrothed to a man named Gaza who was a childhood friend of hers. Though, she does not love him, her parents believe he would be a fitting match for their daughter. She returns home a year later pregnant with Nkosana's child hoping to get forgiveness from her parents and a blessing upon their marriage. They are instead met with fury and disapproval from Zandile's parents. Zandile's mother calls a lady to come and perform an abortion on her but Zandile ends up killing her mother in a scuffle to save her unborn child's life. She gets apprehended for this last piece of the puzzle. The books are realistic and the series she was telling, and that she did not want to compromise her writing. Naledi- His love Naledi is first introduced in the series as Qhawe's -one of the 7 brothers- girlfriend. For Naledi, Qhawe's love is redemptive on so many levels. She is forced by circumstance to accept and love her full figure, so bodily insecurities are overcome. Through Qhawe, her faith and belief in her deserving love- in its purest form- are restored. Qhawe meets her just as she is trying to heal from a past relationship that was both physically and psychologically abusive. Qhawe helps Naledi mend her relationship with her sisters and suggests to her that she and her sisters reconnect with their mother who they had not seen since Naledi was a child. What I find particularly pleasurable about Dube's writing is the realism and the bluntness of the stories she tells. While reading Hlomu's story, for instance, I found myself mad at her for "making" her stay in an abusive relationship. When countless things repeatedly occur, some illegal and some just morally wrong, Hlomu is faced with a seemingly perfect opportunity to call it quits but she stays. It makes you question your ability to love yourself and others and discusses the possibility and ability to forgive in the most raw manner. You sometimes find yourself crying with the character because the story has forced you to confront issues in your own life you never knew existed. Zandile's story, for example, is one about resilience, stubborn faith, and sacrificial love. Yet again, here you find yourself questioning your own morals as you agree and are drawn to hate and despise, then forgive all at the same time. I have not read Naledi's story in full, but what I can deduce from Dube's blog and from Zandile-The Resolute, is that Naledi's story is one of self-discovery and self-acceptance. We have all had to heal from one pain or another, and her story is about restoration, which we can relate to. Naledi's story also offers a "voice of reason" when she asks Qhawe to talk to, and encourage her sister's high school learners by relating his life story and how he and his brothers made a success of their lives against all odds - and we all need a bit of encouragement in our lives, once in a while, and proof that it can be done. I have completed the first two books in the series, and I'm now searching tirelessly for this last piece of the puzzle. The books are realistic and the series she was telling, and that she did not want to compromise her writing. The first book and found out that the first book self-published online and the other two are available through a site called africanmbuy.com or click on the link in my more info. I found out yesterday that Exclusive Books also stocks the books although they fly off the shelves faster than you can say cheese. The best thing to do was to place an order. P.S. there are typos evident throughout the series. I have no idea what the desired effect if there is one, is. This, however, is what I made of them. As I was reading through the first few pages of Hlomu-The Wife, I was taken aback and thought it was a gross oversight on the part of the editors. As I continued reading and getting engrossed in the storyline and acquainted with the characters, the imperfections in the grammar began to foreground a realism in the stories echoed. The story did not feel overly polished and it complimented Dube's raw delivery of pertinent life stories, without the sugar coat. So do not let the little things stand in your way of experiencing something great. I do hope that you enjoy these stories as much as I have and that you find yourself as you peruse through the pages. Dube's characters offer a sense of solace and community to its readers. Take a tour with Dube and her characters in a journey of self-realisation. Have fun... Be known for her Hlomu series - and for writing the novelisation of the 2018 film Zulu Wedding - Busani-Dube is a self-published novelist based in Johannesburg. She describes her books as being about "broken men and the women who try to fix them", and when asked what inspires her books, she has said: "People, just people and their realities." Both of which, you'll no doubt agree, are refreshingly pithy responses. By and large, her books are positioned somewhat in defiance of the white-washed, absurdly photogenic and straightforward romance novel. Her characters are realistic and damaged, they come with baggage and they come with imperfection and insecurity – just like the rest of us. Without fail, Busani-Dube's books come directly from the experience of being a black woman in Africa – they are stories that properly reflect the realities. Busani-Dube is a journalist by trade. Her decision to self-publish was made without even applying for a publisher, which she felt publishers might not understand the stories she was telling, and that she did not want to compromise her writing. Her career and plans on concluding the Hlomu book series with the sixth and final instalment. Dudu Busani-Dube began the "Hlomu The Wife" book series as a blog in 2014 and later followed it up with four installments, which were all bestsellers. Dudu, who The Johannesburg Reviews of Books have described as a publishing phenomenon, has sold tens of thousands of copies of her books. She has emerged as the face of self-publishing in SA, having written and published four best-selling novels. As a successful black female author, Dudu Busani Dube was named as one of the top 18 young achievers in the eThekweni municipality in 2018. List of Dudu Busani Dube's Books Since publishing "Hlomu the Wife," Dudu has been hard at work keeping up with the demands for more books. She started writing her famed Hlomu book series in 2015. After sharing the excerpts with her friends and asking for help editing the book, Dudu Busani Dube got a surprising response as she was asked to continue with the story, which most people found fascinating and relatable. As a result, she has published four installments of the "Hlomu the Wife" book series. Here's the summary of all the books the best-selling author has written thus far in her illustrious career. 1. Hlomu The Wife Publication Year: 2015 Publisher: HlomuPublishing 5-Star Rating on Amazon: 80% Print Length: 450 pages Centered on the lives of eight Zulu brothers from Greytown, KwaZulu-Natal, Dudu Busani Dube began the "Hlomu the Wife" book series focusing on the experience and lives of the wives of the Zulu brothers. In the book, which is the first installment of the series, Hlomu ventures down a road of intense, toxic, and dark love. The book is a love story that takes its cue from life in a South African township. Mahlomu is a young lady who falls in love with taxi owner Mqhele Zulu at their first meeting. It was love at first sight, and Hlomu is happy with the relationship despite being uncomfortable about her lover's personality and past life. Mqhele and Hlomu stand by each other through good and bad times, making their love strong. Mqhele is the most famous of the Zulu brothers, a formidable crime family with a dark and tumultuous past. Their father was a warlord involved in mob justice and money heist. As the brothers are good-looking, wealthy, powerful, and dangerous, the family rank among the richest and most powerful families in Johannesburg. However, inherent danger roams around the brothers, having had a dark past life. In the end, you are either to understand Hlomu's thinking and decisions or admonish her for giving Mqhele a hand to control her. With an intriguing storyline, "Hlomu the Wife" has excellent ratings. It's rated 4.7 out of 5-star on 254 global ratings. Zandile The Resolute Publication Year: 2015 Publisher: HlomuPublishing 5-Star Rating on Amazon: 70% Print Length: 497 pages In 2015, the Durban-born author self-published the second installment of "Hlomu the Wife," entitled "Zandile The Resolute." In the book, she continued the story of the eight Zulu brothers, narrating it this time through the eyes of Zandile, who got married to the eldest of the brothers named Nkosana. The two have a strong affection for each other. Despite their families hating each other, their love, which seems more like a South African township Romeo and Juliet kind of love, endures all the hatred, prison time, and even deaths. The book is available on a handful of online stores, including Amazon, Takealot.com, Goodreads, and Uppercasebooks. Making Dudu's "Hlomu the Wife" book series a blockbuster, "Zandile the Resolute" has gained several positive reviews. It's rated 4.5 out of 5-star on Amazon and has 37 global ratings on the popular website. Also, on Goodreads, "Zandile the Resolute" is rated 4.25 out of 5-star. Naledi His Love Publication Year: 2015 Publisher: HlomuPublishing 5-Star Rating on Amazon: 79% Print Length: 731 pages Having attained vast readership and publicity through penning relatable African stories, Dudu Busani Dube was motivated by her support from self-publishing "Hlomu the Wife" books 1 and 2. As a result, she decided to publish the third of the blockbuster book series entitled "Naledi His Love" in the same 2015. Here, the focus is on the main character, Naledi, who, like Hlomu and Zandile, becomes part of the wealthy and powerful Zulu family by marriage. As part of the epic love story centered on the Zulu brothers, Qhawe and Naledi's love is explored. Naledi understands the price of loving one of the Zulu brothers, which involves having a strong affection that covers Qhawe's dark and rugged past. She also has to brace herself up for the inherent danger that roams around and the trappings that come with being the wife of one of the Zulu brothers. Though the story is pure fiction, Dudu's outstanding writing style ensures that all the characters come alive in the imagination of the readers. Consequently, "Naledi His Love" has attained 4.29 out of 5-star ratings on Goodreads and 5 out of 5-star on Takealot.com. On Amazon, it's rated 4.6 out of 5-star and equally has 37 global ratings. Zulu Wedding Publication Year: 2018 Publisher: HlomuPublishing Print Length: 358 pages In 2018, Dudu published a standalone book entitled "Zulu Wedding," named after the 2017 romantic movie of the same name. Different from her way of storytelling, the best-selling novelist had to write this African story already knowing what the end would be. Despite the difficulties she encountered, the book clinched the No. 1 spot on the Exclusive Books chart within a few days of its release. After being approached by Zulu Wedding film director Lineo Sekeleane to put the story in writing, Dudu wrote the book by making necessary changes but still retained the main storyline. The book is focused on the major character, Lou Lungile, who goes to live in New York after discovering that she is betrothed to Zweli, a young, handsome king from KwaZulu-Natal. While pursuing a dancing career in the city, she falls in love with a New York-based man called Tex. Eventually, complications set in due to the family backgrounds of the two, as Lungile, who comes from a royal Zulu family, is bound by an ancestral debt to marry the Zulu king. Even though she will do anything to avoid returning to South Africa, she is forced to confront the tradition she has been running away from when she gets acquainted with her soul mate, Tex. Unlike the "Hlomu the Wife" book series, "Zulu Wedding" is rated a bit lower on Goodreads, with a 3.95 rating out of 5-star. It has a 4.2 rating out of 5-star on IndianiainPDF.com. 5. Iqunga Publication Year: 2020 Publisher: HlomuPublishing 5-Star Rating on Amazon: 72% Print Length: 325 pages "Iqunga" loosely translates to "the urge to kill again," and in this fourth installment of "Hlomu the Wife" book series, the Zulu brothers go on a journey of discovering their lineage. After meeting with a man who reveals to them that they need to rid themselves of a curse, they embark on another trip to break the curse, ensuring that it doesn't pass onto their offspring. As expected, "Iqunga" comes with all the drama surrounding the Zulu brothers, although Dudu Busani Dube switched things up a bit in the book. The storyline is split into two parts; present and past events. The two events sensually alternate, and the past events unfold why the famed and rich Zulu men are the way they are. "Iqunga" is rated 4.03 out of 5-star on Goodreads and has a 4.5 rating out of 5-star on Amazon alongside 25 global ratings. Amazon.com Sales Ranking of Iqunga: Kindle Store: No. 667,956 African Literature (Kindle Store): No. 140 African Literature (Books): No. 379 Women's Literary Fiction: No. 5,762 6. Mess Publication Year: 2020 Publisher: HlomuPublishing 5-Star Rating on Amazon: 66% Print Length: 402 pages In 2020, as Dudu Busani Dube published "Iqunga," she also penned and self-published the fifth installment of the book series, "Mess." Slightly different from the rest, the book is a heartbreaking story about love, family, and mental health. The story focuses on Mqoqi and Lahlive's relationship as they try to make things work out despite the damage done to them. Mqoqi, who is the most misunderstood of the Zulu brothers, is stuck between the expectation of being among the "wolf pack" and the person he ideally wishes to be. Though considered the most gut-wrenching book in the "Hlomu the Wife" series, "Mess" has garnered good ratings on several online book stores. It has 23 global ratings on Amazon and a 4.5 out of 5-star rating. Then on Goodreads, it's rated 4.28 out of 5-star. The Narrowing Publication Year: 2020 Publisher: Hlomu Publishing PTY LTD 5-Star Rating on Amazon: 50% Print Length: 50 pages Separate from the "Hlomu the Wife" series, Dudu Busani Dube published "The Narrowing" in 2020. The story is centered on Sfundo, who led a tragic life of solitude. Her solitary life, which was full of bad decisions after another, started the day her sister passed on, and the tragedy put her mother in a state of depression. Left emotionally bereft, Sfundo chased away everyone who tried to genuinely show her affection and ended up keeping anyone who used and needed her close. Having mastered the art of suppressing her anger and displaying a calm demeanor, the emotional scars inflicted on Sfundo never healed. Consequently, the suppressed emotions manifested in an absurd and shocking manner at the latter stage. Like the Hlomu book series, "The Narrowing" has positive reviews on online book stores. It has a 4.33 out of 5-star rating on Goodreads and a 4.2 out of 5-star rating on Amazon, with 14 global ratings. Apparently, her growing popularity stemmed from penning and self-publishing interesting books with a touch on themes of love, power, and motherhood. She became the face of self-publishing authors after her books topped the Exclusive Books charts and four simultaneously gained spots in the Nielsen Bookscan SA bestseller list. With her readers captivated South African readers since her first book, it's no surprise that Dudu Busani Dube's "Hlomu the Wife" series caught the attention of Showmax. The streaming service announced the adaptation of the first three installments of the fascinating book series in early 2021. The streaming platform commissioned three seasons of the series. The Wife, and it became its first-ever South African original telenovela. The Wife debuted in November 2021 and was inspired by "Hlomu the Wife," "Zandile the Resolute," and "Naledi His Love." It has turned out to be one of Mzansi's favorite TV series, having shattered several records on Showmax, including being the TV series with the most first-days views of all time and the most hours watched within four days of its debut. Since its release, the hit series has gained rave reviews, and many have described it as the best thing yet. The compelling telenovela, which is a tale of love stories through the wives of the Zulu brothers, will be split between the three books for three seasons with a total of 120 episodes. Showmax commissioned 40 episodes per season of the series and has wrapped up the first and second seasons. The third season is expected to debut late this year and will be focusing on Naledi (Gaisang K Noge), a doctor who starts developing a feeling for Qhawe Zulu (Kwenz Ngcobo). Though a bit different from the book's fiction storyline, The Wife is a fan favorite.
