Accordion June 2024 jonathan.m.evans December 2022 jeffinville September 2022 bradtollefson January 2018 joneszmusicman I rode this trail in June of 2017, and had a great time. I rode from South Haven to Kalamazoo, biked into town for food, and then hit the trail again to return to South Haven. It's a ride I would do again. Trail conditions - the surface was quite nice. Not too many potholes. Under the right weather conditions, I'd feel great riding this on a road bike with 28mm tires. However, I ran across plenty of twigs and small limbs on the road. I might be hesitant to ride with a caliper brake road bike because of them. When I rode the trail, I used a cross bike with 38mm aggressive tires and cantilever brakes. I didn't feel that the tire friction was too much - in fact, I was happy with my pace for the day and felt like I didn't have to fight too hard for it. The limbs and muddy spots weren't an issue. I thought my setup was a great fit for the trail, although in the right conditions you could probably get away with anything from a road bike to a mountain bike. Scenery - it's not breathtaking by any means, but there is a variety, and I found it pleasant. There was open farmland, thick brush, swamp, and forests to ride through. The climb in the forest up to the Kalamazoo trailhead was particularly nice. Amenities - there was plenty of water along the route. And while the trail didn't directly pass through many towns, about every 5 miles there was some sort of town that was close, so I never felt concerned for my water or food situation. Topography - It seems pretty flat when you ride it one way, but the elevation difference between Kalamazoo and South Haven is sure noticeable when you turn around and ride back the other way. If you're planning to do the full out and back, keep this in mind. Finally, miscellaneous tips: - Bloomingdale was a cool town to ride through, and sits at the halfway point of the trail. If you're looking for a shorter ride, this would be a good turnaround point from either end. - Biking to fast food from the Kalamazoo trailhead is a bit of a ride, and features plenty of traffic. It is perfectly doable though. - Wading out in the beach at South Haven was a great way to cool off post-ride, and I'd recommend it....if you don't mind getting very sandy.
