Harry Potter universe is based on a series of fantasy novels by British author J. K. Rowling. The novels tell the story of a young boy with magical powers that starts going to Hogwarts School of Witchcraft and Wizardry to learn all about the magical sense and casting spells. There he has a group of friends Hermione Granger and Ron Weasley, amongst others, and the main plot is the struggle against Lord Voldemort, a wizard that intends to destroy the wizard governing body, destroy all non-magic people (muggles) and become immortal. The first novel was released in 1997 and was really popular. Since then there have been 7 novels about Harry Potter in total and a few more books and short stories about the magical universe. Thanks to its popularity it was later adapted to cinema and they made 8 movies starring Daniel Radcliffe as Harry Potter, Rupert Grint as Ron Weasley, Emma Watson as Hermione Granger, Michael Gambon as Albus Dumbledore, Tom Felton as Draco Malfoy, Alan Rickman as Severus Snape and Ralph Fiennes as Lord Voldemort, to mention a few. Another popular film franchise about the Harry Potter universe is the "Fantastic Beasts" film series. In this film Newt Scamander, played by Eddie Redmayne, is a magical zoologist that follows the track and takes care of some magical animals. One exception is multiplayer games. single-player games are relatively new compared to some ancient gaming technology, the first recorded single player games most likely came from playing cards like the game of patience almost known as solitaire, the earliest writing about solitaire was from the mid 1700s, it wasn't until the late 1900s when single player video games showed up, some of the earliest console games also required 2 players like the famous pong game. However, later console games helped pave the way for story driven single player games. At the same time, the single-player video game renaissance of the internet was growing. Personal computers and the internet enabled more than one hundred thousand games to be created in the first 30 years since the internet has become popular. The majority of browser games are single player first and most Pong clone nowadays have a computer controlling the player's opponent. 1 Player Game Types Ball Fall 3D - Fun physics game Fill Maze - Fun mobile friendly puzzle game Mahjong - Classic Asian puzzle game Bartender game - Classic sim game Match Drop - Fun Match 3 type game Show More Show Less Helluva Boss Character Creator Dragon Ball Character Creator Adventure Time Character Creator Demon Slayer Character Creator Star Wars Character Creator Ultimate Character Creator Pokemon Character Creator Monster High Character Creator Dnd Character Image Creator Dnd Character Model Creator Stardew Character Creator Full Body Character Creator Online Free Hazbin Hotel Character Creator Elden Ring Character Creator Stardew Valley Character Creator Character Creator Website Character Creator Full Body Terraria Character Creator Animal Crossing Character Creator Doll Divine / Exclusive / Fantasy / Harry potter / Witches Game by: Doll Divine Classic Review the game and share your dolls: Turn your phone to portrait mode or enlarge your screen size to play Picrew is a make-and-play image maker platform.
