Our silent letters worksheets help children in grade 1 and grade 2 become increasingly certain about a mostly funny and at times annoying aspect of the English language. English is notorious for its bizarre ways of spelling and pronouncing words. Often, we see a letter sitting in a word while not making its presence felt in its pronunciation. Look at the letter b in thumb, the d in handsome, or k in knock. Chances are you're already maddened at these words for leaving certain letters just remain silent. Browse through our free silent letter pdf worksheets and make the most of them! Identifying Silent Letters This fun section of our silent letters worksheets has balloons flying on the power of words. Some words have silent letters while some don't. Color the balloons with silent-letter words. Enjoy identifying silent letters! Naming Pictures with W-Silent Words The letter w stubbornly refuses to be audible in words like write and wrap. Tell your children in grade 1 that this is the case with every word that starts with w. Name the images with correct silent w words. Silent Letters Chart Grab this exquisite printable chart that introduces you to and exemplifies five common silent letters. In this printable activity from our silent letters worksheets, look for and jot down words with the silent "h". Circling Silent Letters in Words The l in half is simply sitting there doing nothing at all. A novice learner might spell it haf, and he would expect everything to be just as fine. Read the words below and circle the silent letter in each word. Finding Silent-Letter Names Cruelly is when the "b" in "lamb" and "comb" rudely stares at us without participating in any sounding action. In this pdf for 2nd grade, look for the name of each picture in a jumble of words. Write the word. Add these free, printable silent letter worksheets to your phonics resources for your classroom. These pages include pictures to help students match words with meaning. These pages will provide a challenge for students silent letters will not be a beginning phonics skill. Instead, start with CVC worksheets and CVCe worksheets. Silent letters are words that children will see but not hear when reading words. These can be tricky because the spelling patterns must be memorized as there is often not a trick as is found in many other words. For these pages, I focused on words with the silent letters of b, c, d, g, h, k, l, p, t, and w. Practicing Words with Silent Letters Because words containing silent letters can be so tricky to write, students will need lots of practice with these. You might try having them make a list of words they find in their reading containing silent letters. Another idea is to make an anchor chart where students can add words they find on a class list. This might motivate students to find more words. About These Silent Letter Worksheets This set contains 25 printable pages where students will work with words containing silent letters. Students will complete words and color pictures while identifying the missing letters. These pages might fit into your second or third grade word work practice. You will find a range of Silent Letter Worksheets for phonics practice. These pages might offer a challenge to students just beginning to read. If your students are not yet ready for silent letters, begin with short vowel sounds or single letter beginning sounds. When creating these pages, my goal was to provide you with pages that will engage students. Many of the pages include mazes or other small activities to add a little fun for children. The collection begins with pages that each focus on a letter. Students can follow the letter through the maze and color the pictures. Have students color the silent letter in each word. The engagement piece can be especially helpful during a time of distance learning! Parents will appreciate the little extra these pages provide. While they can be challenging to learn, understanding the patterns and reasons behind them can make them easier to master. In this guide, we'll explore the phenomenon of silent letters, provide common examples, and delve into the historical reasons behind their existence.Silent Letters in EnglishPinSilent Letters Created by 7ESILent letters in English can be a source of confusion for both language learners and native speakers alike. These are letters that, while present in the spelling of a word, are not pronounced when the word is spoken. Understanding silent letters is crucial for proper pronunciation and spelling.What is a silent letter? A silent letter is a letter that, in a particular word, does not correspond to any sound in the words pronunciation.One of the noted difficulties of English spelling is a high number of silent letters, theymake the spelling of words different from their pronunciation.One of the most common silent letters is the letter e at the beginning of words. Its typically silent but serves an important role in indicating the pronunciation of the preceding vowel, often making it a long vowel. For instance, in the word cake, the e at the end signals that the a is pronounced as /e/, rather than as a short vowel /ʌ/, as in cat.Another frequent silent letter is c when it precedes an n at the beginning of words. This combination is a remnant of Old English and is found in words like knight (/naɪt/) and knee (/ni:/). The k was once pronounced, but over time, the pronunciation shifted to a silent k.The letter h can also be silent, particularly when it follows w. In words like what (/wʌt/), when (/wɛn/), and why (/waɪ/), the h is not pronounced. This pattern is a vestige of where the wh sound in Old English was pronounced more distinctly.Additionally, the letter l can be silent in some words, especially when it comes after certain vowels, as in would (/wʊd/), should (/ʃd/), and could (/kʊd/). The l in these words is a historical relic, as it was pronounced in Middle English.Silent g and h often occur in words with a Greek origin, such as gnome (/nom/) and psychology (/skɪdli/), where the initial g and p are not voiced. These spellings reflect the words etymologies, as the letters were pronounced in the original Greek. Similarly, words borrowed from French sometimes retain their silent letters, such as the silent s in debris (/deɪ.bri/) and the silent t in ballet (/b.leɪ).The silent b often appears in words after m at the end of a word, as in lamb (/lɒm/) or dumb (/dʌm/). This pattern traces back to changes in pronunciation from Middle to Modern English, where the b stopped being voiced.Its important to note that while many silent letters can be attributed to historical spelling conventions that have not been updated to match modern pronunciation, some silent letters still serve a purpose in distinguishing between homophones. For example, the silent w in write (/raɪt/) helps to differentiate it from right (/raɪt/).Words With Silent LettersHere's a list of common words with silent letters in English.PinWords With Silent Letters Created by 7ESILWords with Silent Letter AAristicallyLogicallyMusicallyPhysicallyCriticallyWords with Silent Letter BAploombBombClimbCombCoulombCrumbDebtDoubtDumbJambLambLimbNumbPlumberSubtleSuccumbThumbTombWombWords with Silent Letter CAbcessAscendAscendConscienceConsciousCrescentDescendDiscipleEvanescEvanescFascinateFluorescentMuscleObsceneResuscitateScenarioSceneScissors'TranscendWords with Silent Letter DBridgeEdgeHandkerchiefHandsomeHedgeSandwichWedgeWednesdayWords with Silent Letter EAgeBreatheBridgeChangeClothesGeneHateLikeLovePleaseVegetableWords with Silent Letter GAlignAssignBenignCampaignChangeCologneConsignDesignFeignForeignGnarlyGnashGnatGnawGnomeGnomieGnomieHighLightReignResignSignWords with Silent Letter HAcneArcheologyArchitectChaosCharacterCharismaChemicalChlorineChoirChordChoreographChromeEchoGhostHonestHourMechanicMonarchyOrchestraPsychicRhythmSchemeSchoolStomachTechWhatWhenWhereWhetherWhichWhileWhiteWhyWords with Silent Letter I Words with Silent Letter KKnackKneaveKneadKneeKneelKnewKnickersKnifeKnightKnitKnobKnockKnollKnotKnowKnowledgeKnuckleWords With Silent Letter LAlmondBalmCallCalmChaikCouldFolkHallPalmSalmonShouldTalkWalkWouldYolkWords With Silent Letter N Words with Silent Letter PCoupCupboardPneumoniaPseudoPsychiatristPsychicPsychologyPsychotherapyPsychoticRaspberryReceiptPinSilent Letters in English Created by 7ESLWords with Silent Letter S Words with Silent Letter TApstleBristleBustleButcherCastleChristmasFastenGlisterHustleListenMatchMoistenMortgageNestleOftenRustleScratchSoftenThistleWatchWhistleWitchWrestleWords with Silent Letter UBaguetteBiscuitBuildingCircuitDisguiseGuardGuessGuestGuildGuileGuiltGuitarRogueSilhouetteTongueVogueWords with Silent Letter WAnswrAwryPlaywrightSwordWrackWrangleWrapWrappervrathWreathWreckWreckageWrenWrenchWrestlingWretchedWriggleWringWrinkleWristWrongWordsSilent Letters | PictureList of Words with Silent Letters in EnglishPinWords with Silent Letters in English Created by 7ESLWords With Silent Letters | Pronunciation VideoLearn the list of words with silent letters with American English pronunciation. However, they play an essential role in the language, and understanding how to use them correctly can help improve ones writing and communication skills. In this section, we will explore how silent letters are used in compound words, homophones, and contractions.Related Learn English PronunciationCompound WordsCompound words are words that are formed by combining two or more words. In some cases, the compound word may have a silent letter that is not pronounced. For example, the word butterfly is a compound word that is made up of butter and fly. The letter e in butter is silent, but it changes the pronunciation of the word when combined with fly.HomophonesHomophones are words that have the same pronunciation but different meanings. Silent letters are often used in homophones to distinguish between the different spellings and meanings of the words. For example, the words knight and night are homophones. The letter k in knight is silent, but it distinguishes the word from night, which means the period of darkness between sunset and sunrise.ContractionsContractions are words that are formed by combining two words and omitting one or more letters. Silent letters are often omitted in contractions to make the words easier to say and write. For example, the contraction cant is formed by combining cannot and omitting the letter o. The letter o is silent in cannot, so it does not affect the pronunciation of the contraction.In summary, silent letters play an important role in the English language, particularly in compound words, homophones, and contractions.
